Gloria Jillson - Arnold Bennett.

There is one right which man is generally thought to possess, which I am confident he neither does nor can possess - the right to subsistence when his labor will not fairly purchase it. - Thomas R. Malthus.

Luck means the hardships and privations which you have not hesitated to endure; the long nights you have devoted to work. Luck means the appointments you have never failed to keep; the trains you have never failed to catch. - Max O'Rell.

So to conduct one's life as to realize oneself - this seems to me the highest attainment possible to a human being. It is the task of one and all of us but most of us bungles it. - Ibson.
